

# RAQ

## High-Pressure Cleaning Aquajet

Gasoline engine

Small size & big performance, suitable for all commercial vehicles

Max 600mm

The RAQJET is suitable for unblocking and cleaning of drains and sewers up to 600mm. Thanks to its very compact design and low weight, it fits almost any lightweight van and pick-up such as Toyota Hiace, Mercedes Benz Vito, Volkswagen Transporter, Caddy or Peugeot Partner.

360KG

The RAQJET leaves maximum internal loading space for storage of tools and equipment without exceeding the maximum payload of the van. The machine is also easily installed.

500 liters

### VALUE FOR MONEY

The choice of various engines, pumps and water tanks enables BurrowTech to build the machine to your specification.

Remote control

The RAQJET is designed with maintenance in mind, with a removable cover allowing easy access to the engine and pump for servicing.

High-pressure reel

### GREAT ERGONOMICS

The steel hose reels and control panel are mounted at the optimum working height, giving you ultimate operation comfort.

The RAQJET is available in various configurations and can be enhanced with many options such as radio remote control, pulsator system and hydraulic hose reel drive.

# RAQJET Sewer cleaning machine

## RAQJET Truck Professional Sewer jet

The RAQ is the most compact among jet fleets. He is equipped with a large capacity stainless steel water tank, available at 2900psi or 4350psi for you to choose from. This device adopts a brand new intelligent system, which not only has a 6-channel remote control, but also a more powerful computer. It is suitable for Mercedes Benz, and equivalents, providing a pressure of 3000 pounds per gallon at a speed of 18.5 GPM.

The high-pressure hose reel can accommodate SOM/160 inch hoses.
